TOKENOMICS

*Detailed on
the next page*

Our tokenomics structure ensures that a portion of each transaction contributes to liquidity, development, marketing, and community incentives.

Our tokenomics strategy is designed to support the growth and sustainability of Pepe Legacy Token. Each transaction contributes to liquidity, development, marketing efforts, and community engagement, ensuring a robust and vibrant ecosystem for our token holders. Twenty percent will be burned in few stages soon.

Tokenomics Overview for Pepe Legacy Token

Total Supply: 390,000,000,000,000

Buy Tax: 5%

Sell Tax: 5%

Tax from each transaction is distributed as follows:

1% Burn, 2% Development, 2% Marketing

Allocations:

Liquidity: 60%

Play2Earn Rewards: 20%

Burn: 5%

Airdrop: 5%

Owner Share: 5%

Developer Share: 5%

Ensuring a well-balanced allocation of resources, this tokenomics structure dedicates percentages to marketing, development, rewarding holders, liquidity provision, and burning to enhance scarcity. Moreover, the owner and developer both retain a 5% stake, aligning their interests closely with the project's long-term success.

Utility and Use Cases

As we look to the future, we are excited to share our ambitious plans for Pepe Legacy Token. In the Q3 of 2024, we are set to launch a groundbreaking DeFi play-to-earn platform set in a medieval fantasy world.

Enter the Medieval Fantasy Realm

Imagine stepping into a world reminiscent of medieval lore, where knights, wizards, and adventurers roam. This immersive environment will serve as the backdrop for our upcoming DeFi play-to-earn platform, bringing a unique blend of gaming and finance to the blockchain space.

Earn While You Conquer

Our platform will enable users to embark on epic quests, conquer dungeons, and engage in arena duels with fellow players. These adventures won't be just for glory; they will offer real financial rewards in the form of Pepe Legacy Token. As you journey through this captivating world, you'll have the opportunity to accumulate tokens, valuable in-game items, and even compete in arena battles for cash prizes.

Smart Contract's Explained

Smart Contracts and Blockchain: Your Promises Carved in Digital Stone

Smart contracts and blockchain are like legal agreements carved in digital stone. Once you make a promise in this digital realm, it's not only visible to everyone but also impossible to alter or break. This means that the guarantees you make are not just secure, they are unchangeable, thanks to the safeguards embedded within smart contracts.

Harnessing Blockchain's Power for Investor Security

We've harnessed the capabilities of blockchain in multiple facets, ensuring that you, as an investor, can feel secure as you embark on your journey into the world of DeFi. All of these security measures will be further explained in detail as we continue our exploration.

Features & Rewards

Enhancing Your Investment

As mentioned earlier, every purchase and sale transaction incurs a 5% tax. The entirety of the proceeds accumulated in the tax pool is earmarked for the vital aspects of our ecosystem: liquidity, marketing, and development.

Empowering Active Investors with Tax Discounts

The smart contract's inherent flexibility empowers us to recognize and reward our most active investors, including providing them with substantial tax discounts.

Monthly Challenges: Fueling Your Rewards

Each month, based on qualification criteria outlined in specific challenges, we will reward a select number of participants with additional tokens, discounts, and more. These monthly challenges are designed to encourage and acknowledge the engagement and commitment of our investor community.

Security & Transparency

Your Trust, Our Priority

Blockchain technology offers the remarkable capability of providing transparent access to smart contracts. Our smart contract is no exception – it is fully verified and open for inspection by anyone interested in gaining insight into our code, exploring its functions, and assessing its security measures.

Tax Structure: Security for Investors

Our smart contract has a hard coded maximum tax level. Tax cannot exceed 5%! This means that taxes are inclined to only decrease, considering various events, opportunities, and rewards.

Locked Liquidity: Protecting Your Investment

Have you ever heard of a "rug pull"? A rug pull occurs when a token's value rises, and the owner suddenly removes the liquidity, leaving investors with nothing. Here, that won't happen. Our liquidity is securely locked for a period of 5 years, ensuring that it cannot be withdrawn.
